

BRING ON YOUR WOOL.

WE have now in operation at our MILLS, nine miles west of Laurens C. H., a new and complete set of WOOL CARDS, with which we are carding Wool, including the *finest Merino* with complete success. We have engaged the services of Daniel Buckley, of New Jersey, who as a scientific carder has no superior, he having had thirty years experience in the Northern States. When our patrons furnish oil, say one pint or one pound lard, to each eight pounds of wool, our terms are in specie or its equivalent. White Wool 10½ cents per pound, Colored 11½, Mixed 12½, and mixed with cotton 13½. We card for one-fifth of the Wool. Patronage solicited and satisfaction guaranteed. Provisions taken at market rates.

R. S. & J. W. GOODGION.

New York City, July 25, 1866.

This is to certify that J. W. Goodgion, Esq., purchased of me a Double Roll Card Machine, which I can recommend as being first-class, and can safely say superior to any made in the East. The Card Clothing to cover said machine was made by me, and which it is unnecessary to praise, as my reputation as a Card Manufacturer in the South is sufficient.

JOHN WHITTEMORE

July 27, 1866.
