

The Clinton News.

For several weeks the Clinton News has been coming to this office. The paper is a new one, the type and presses, we presume, are new. At least the print is so nice that we are sorry to see such nice type used in printing a newspaper. And there is more editorial work, more news gathering, and more work on it generally than is bestowed on a majority of the newspapers. The man who is printing as nice a paper as the Clinton News could make more money at the job printing business. The editor is S. Frank Parrott, and the subscription price is \$1, or about fifty per cent. less than cost.
