ABOUT OURSELVES.—As will appear from this issue, we are once more up to schedule time in the publication of Our Monthly and there we hope to stay. We had to do it, though, by publishing two numbers in one month. Having accomplished this much, we now propose to go on to improve still more. We have satisfactory evidence that Our Monthly has done and is doing good. If it were not for the consciousness of that fact, we would not publish it one hour longer. Therefore we desire and intend to make it more effective for good. Again we ask our friends to help us to extend our circulation. We are specially desirous of a large number of readers in Laurens County. We love our own little village, but our heart is large enough to take in the whole county. We are grateful too that we have readers throughout the entire South, and in every State in the South, indeed in nearly every State in the Union. We want more. We hope to do some good preaching through the columns of Our Monthly and want a large audience.

[Our Monthly, Clinton.]
